

Diritto

Classe VD RIM

Module 1

lessons: 8 hours

- United Nations
- organs
- functions, main activities and goals
- World Bank and International Monetary Fund
- organs
- functions, main activities and goals
- computer based test
- oral tests

1 hour
4 hours

Module 2

lessons: 8 hours

- European Union
- evolution from CECA until today
- organs
- functions, main activities and goals
- the different European areas (Shenghen, Eurozone, EU)
- the Euro and its implications in monetary policy
- oral tests

4 hours

Time for: research, material adaptation, preparation:

8 hours

Relazioni Internazionali**Classe IIIB RIM**Module 1

lessons 12 hours

- from Paretian equilibrium to individual demand function
- from individual to market demand function
- movements along demand function
- shifts of demand function
- market equilibrium and "how to reach the equilibrium"
- mathematical written test: 1 hour
- written test of theory comprehension
- oral tests:

1 hour

4 hours

Module 2

lessons 6 hours

- supplier equilibrium
- oral tests

4 hours

Classe IIIC RIMModule 1

lessons 12 hours

- from Paretian equilibrium to individual demand function
- from individual to market demand function
- movements along demand function
- shifts of demand function
- market equilibrium and "how to reach the equilibrium"
- mathematical written test: 1 hour
- written test of theory comprehension
- oral tests:

1 hour

4 hours

Module 2

lessons 6 hours

- supplier equilibrium
- oral tests

4 hours

Time for: research, material adaptation, preparation:

10 hours

Classe IVB RIM

<u>Module 1</u>	lessons	10 hours
<ul style="list-style-type: none">• The equilibrium on the Goods Market and the Aggregate Demand:• its composition• the factors that influence it• the consumer function• AD function• the income that grant the equilibrium on the Goods Market• fiscal policy and its effect on AD• mathematical written test: 1 hour• written test of theory comprehension:• oral tests:		
		1 hour
		4 hours
<u>Module 2</u>	lessons	10 hours
<ul style="list-style-type: none">• from the equilibrium on the Goods Market to IS function building• from the equilibrium on Financial Market to LM function building• IS-LM model as support in Governments' decisions• pros and cons of fiscal and monetary policy• written test of basic theory comprehension• written test of advanced theory comprehension• mathematical written test:• oral tests:		
		1 hour
		4 hours
Time for: research, material adaptation, preparation:		9 hours
